# The Policy of Submissions

- All assignments and projects need to be submitted to GitLab.
- Late submission will **not** be accepted.
- Plagiarism will **not** be tolerated.
  - If we find you copy someone's code, you will get **0 point** for that assignment/project.
  - If you are not sure, ask us.

# Teaming

- 1~2 people group a team.
- Please register your team before **3/2 (Thu.)**
  - Registration form:  
<https://goo.gl/forms/E9uUeYrtgKW5KynZ2>
  - We will announce the number of your team after we make sure that all students have their teams.
- Each team only needs one submission for each assignment/project.

GitLab

# GitLab

- GitLab is an on-line project management system, which works in the way similar to GitHub.
  - The community version is open-sourced.
  - Anyone can download the community version and install it in its own server.
- We have our GitLab server
  - <https://shwu10.cs.nthu.edu.tw/>
  - We have created accounts for each student who takes this course.

### Welcome to GitLab!

Self hosted Git management application.

You don't have access to any projects right now.

You can create up to **100 projects**.

+ New Project

You can create a group for several dependent projects.

Groups are the best way to manage projects and members.

+ New Group

There are **615** public projects on this server.

Public projects are an easy way to allow everyone to have read-only access.
